F. No. TIFAC/IMC/Parliament/2021

11.02.2021

Subject: Rajya Sabha Starred question on "Alternative protein and plant based meat"

Dear Shri Devarajan,

The Inputs from TIFAC in respect of the above Rajya Sabha Questions is as follows:

TIFAC, in its pursuit of preparing country for upcoming disruptive technologies, prepared a dossier on "Cellular Agriculture" (e.g. Artificial meat - Meat without animal slaughter) which was discussed as a part of 31st TIFAC Foundation Day event held on 10th February, 2018 under the theme "Future of Life on Earth – Role of Disruptive Technologies". The dossier covered various aspects of Cellular Agriculture such as technology involved, global & Indian trends, challenges & merits of the technology. The dossier also covers important events and research related to cellular agriculture.

With regards.

Yours sincerely,

(Sangeta Baksi)

PARLIAMENT QUESTION

Government of India
Ministry of Food Processing Industries
(Parliament Section)

Dated: 08.02.2021

RAJYA SABHA

ADMITTED VERSION OF STARRED QUESTION FOR 12TH FEBRUARY, 2021

THE
4th POSITION IN CASE OF
STARRED QUESTION

Alternative protein and plant-based meat

124 Shri Md. Nadimul Haque:

Will the Minister of *Food Processing Industries* be pleased to state:

- (a) whether Government proposes to provide incentives for development of alternative protein and plant-based meat;
- (b) whether globally consumers are moving towards plant-based meat for nutritional value and its environment impact, if so, the details thereof and if not, reasons therefor;
- (c) whether Government plans to promote plant-based industries by educating people, if so, details thereof and if not, reasons therefor;
- (d) the details of institutions involved in R&D in this regard;
- (e) whether Government is considering to conduct a study in this regard; and
- (f) the measures taken to revolutionize food system and changing narrative around consumers' perception of protein?

Technology Information, Forecasting & Assessment Council (TIFAC)

(Department of Science & Technology)
Vishwakarma Bhawan, Shaheed Jeet Singh Marg
New Delhi -110016

F. No. TIFAC/IMC/Parliament/2021

22.02.2021

Subject: Parliament Standing Committee Consideration of DFG 2021-2022

Dear Dr. Joshi,

The Inputs from TIFAC in respect of the above Subject are as follows:

(i) **Mandate of the Autonomous Body/Professional Bodies/Institutes.**

- a) To set up specialized sub-groups for examining and evaluating the existing state of art of technology and direction of future technological developments in various cross-sectoral areas as well as in other sectors of the economy, both in India and abroad and to prepare technology forecasting reports, covering 10 years or longer periods, especially in production areas involving (a) substantial investments of financial resources and (b) a large volume of production.
- b) To obtain from appropriate sources and project the estimates of the nature and quantum of the likely demands of goods and services in various sectors of the economy against 10 and 25 years' time-frames on the basis of (a) 'normative', and (b) 'exploratory' approaches and to suggest the direction and extent of technological changes that might be considered necessary in order to fulfil these demands in the light of the existing or anticipated resource base of the country.
- c) To prepare Technology Impact Statements, with a view to uncovering the likely implications and consequences, both desirable and undesirable, of the existing as well as newly emerging technologies upon society, indicating to decision-makers, through generation of future-oriented scenarios, their short-term and long-term implications.
- d) Based on the T.I.F & A. Studies and with a view to –
 - ensuring timely availability of requisite technologies relevant to the needs of the country on futuristic basis and minimizing the time gap between the development of new technologies and their utilization and (b) establishing a purposeful linkage between technology development and technology import policies, to identify priority areas of research in relation to the socio-economic, environmental and security needs of the country; to evolve and suggest strategies for technological developments based on such priorities; and to draw up programmes of purposeful research in various sectors.
- e) In order to fulfill the above objectives, to devise and set up suitable Information Collection, Analysis and Programming groups.
- f) To produce an Annual Technology Report for the Prime Minister.
- g) Any other matters, incidental or ancillary to the above.

1.1 **Objectives of Sectoral TIFA Groups**

The TIFA's mechanism would be a multi-level one involving all economic and technical Ministries and scientific agencies of the Government. In addition to Technology Information, Forecasting and Assessment Council (TIFAC), for which DST would be the nodal Department, sectoral TIFA groups would be constituted by individual Ministries/Department/scientific agencies in consultation with TIFAC. These Groups would function under individual Ministries/Departments but their activities would be coordinated by TIFAC so as to achieve the following objectives:

- i) To commission sectoral TIF & A studies for individual socio-economic/industrial sectors;
- ii) To analyse the reports on Technology Forecasting & Assessment prepared by specialist

- sub-groups/panels and submit the same to the Ministry/Department/Agency concerned and to the Central Group, along with their comments;
- iii) To prepare Technology Impact Statements for the various areas covered by the Technology Forecasting studies;
 - iv) To identify priorities for undertaking indigenous R&D activities/acquisition of technology in various areas covered by the sector, keeping – of course – the inter-sectoral relationships and the overall socio-economic, environmental and security needs of the country in view;
 - v) To suggest strategies for technological development based on priorities and draw up specific programmes for research; and
 - vi) To submit Annual Reports to the TIFAC and to concerned Ministry/Department/Agency, etc.

(ii) Top 10 goals of the Autonomous Body/Professional Bodies/Institutes.

- To obtain the estimates of the nature and quantum of the likely demands of goods and services in various sectors of the economy against 10 and 25 years' time-frames on the basis of a) 'normative', and (b) 'exploratory' approaches
- To suggest the direction and extent of technological changes that might be considered necessary in order to fulfill these demands in the light of the existing or anticipated resource base of the country.
- To prepare Technology Impact Statements, with a view to uncovering the likely implications and consequences, both desirable and undesirable, of the existing as well as newly emerging technologies upon society, through generation of future-oriented scenarios, their short-term and long-term implications.
- Based on the T.I.F. & A. Studies and with a view to ensuring timely availability of requisite technologies relevant to the needs of the country on futuristic basis and minimizing the time gap between the development of new technologies and their utilization.
- To generate Technology Forecasting, Technology Assessment, and Technology Market Survey Reports, providing technology related information.
- Promote key technology relevant to Indian context and evolving suitable mechanism for Demonstrate technology towards commercialization as well as facilitating patent information services.
- TIFAC continues to strive for technology development of the country by leveraging technology innovation through sustained and concerted programmes in close association with academia and industry.
- Establishing a purposeful linkage between technology development and technology import policies, to identify priority areas of research in relation to the socio-economic, environmental and security needs of the country.
- To evolve and suggest strategies for technological developments based on such priorities; and to draw up programmes of purposeful research in various sectors.
- In order to fulfill the above objectives, to devise and set up suitable Information Collection, Analysis and Programming groups.

(iii) What is planned to be achieved during 2021-2022

- To design and implement programmes on select technologies as model demonstration which can be replicated by other line Ministries on a large scale, preparation of technology gap analysis reports etc.
- To tap the immense latent potential of India with respect to seaweeds, TIFAC has launched a seaweeds mission. Besides setting up demonstration seaweed farms, the mission would also translate value chain development and demonstration of processing technologies in 2021-22.
- TIFAC has launched a dynamic portal named Shramik Shakti Manch (SAKSHAM) which uses various Artificial Intelligence (AI) tools while collecting and analysing the information / data. The portal with the demand and supply data uses algorithm and logic being integrated with the system.

so that it would not only provide geo spatial information on demand and availability of Shramiks, but would also provide analysis on skill match, skill gaps, recommendations on skill training programmes, etc. It is being planned to facilitate ten lakh blue collared jobs in MSMEs and other industries in 2021-22. This would empower Shramiks by projecting their candidature directly to the MSMEs & other employers and hence would eliminate the dependence of industry on the middlemen / labour contractor for their manpower requirements.

- TIFAC has launched telemedicine demonstration project management in association with IIT M for an inclusive reach to remote areas on a cost effective basis to provide quality medical care for women & children living in inaccessible/hilly terrain through newer telemedicine technologies. The project will use IOT and cloud storage along with wearable sensors to reach out to people in the coming year. The duration of the project is one year and would cover three districts to begin with.

(iv) **List of officers / Directors (along-with contact details) heading these Autonomous Body / Professional Bodies / Institutions.**

Dear Shri Sanjay Singhji and Mukesh

PFA the rdraft eply for subject matter. ED has suggested the following

"Give details of each programs for next year at least two lines for each like telemedicine pilot, Development of larger outreach and model development for agri ultural product management, Use ofAI and Big data for vaccine management, etc"

PI check the dfaft and add 2 to 3 lines under point 3 mentioned therein. This is required urgently tonight if possible

Q2

- To obtain the estimates of the nature and quantum of the likely demands of goods and services in various sectors of the economy against 10 and 25 years' time-frames on the basis of a) 'normative', and (b) 'exploratory' approaches
- To suggest the direction and extent of technological changes that might be considered necessary in order to fulfill these demands in the light of the existing or anticipated resource base of the country.
- To prepare Technology Impact Statements, with a view to uncovering the likely implications and consequences, both desirable and undesirable, of the existing as well as newly emerging technologies upon society, through generation of future-oriented scenarios, their short-term and long-term implications.

- Based on the T.I.F. & A. Studies and with a view to ensuring timely availability of requisite technologies relevant to the needs of the country on futuristic basis and minimizing the time gap between the development of new technologies and their utilization
- To generate Technology Forecasting, Technology Assessment, and Technology Market Survey Reports, providing technology related information
- Promote key technology relevant to Indian context and evolving suitable mechanism for
- Demonstrate technology towards commercialization as well as facilitating patent information services.
- TIFAC continues to strive for technology development of the country by leveraging technology innovation through sustained and concerted programmes in close association with academia and industry
- Establishing a purposeful linkage between technology development and technology import policies, to identify priority areas of research in relation to the socio-economic, environmental and security needs of the country;
-
- To evolve and suggest strategies for technological developments based on such priorities; and to draw up programmes of purposeful research in various sectors.
- In order to fulfill the above objectives, to devise and set up suitable Information Collection, Analysis and Programming groups.

Q3 What is planned to be achieved during 2021-2022

- i) to design and implement programmes on select technologies as model demonstration which can be replicated by other line Ministries on a large scale, preparation of technology gap analysis reports etc.
- ii) TIFAC may act as catalyst in preparing detailed action report for nucleating programmes by preparing SFC, EFC, Cabinet Note etc. in consultation with the relevant line Ministries
- iii) A technology Mission on Seaweed
- iv) Portal named Shramik Shakti Manch (SAKSHAM)
- v) An initiative on telemedicine

Parliament Matter/Most Immediate

Sir/Madam.

It is informed that Rajya Sabha Secretariat and Parliamentary Standing Committee has requested to furnish the following details/information on urgent basis:-

- (i) Mandate of the Autonomous Body/Professional Bodies/Institutes.
- (ii) Top 10 goals of the Autonomous Body/Professional Bodies/Institutes.
- (iii) What is planned to be achieved during 2021-2022.
- (iv) List of officers /Directors (along-with contact details) heading these Autonomous Body/Professional Bodies/Institutions.

It is, therefore, requested to kindly arrange to submit the details by **01.00 PM on 22.02.2021 positively, to the undersigned in word format (doc. file)**

It is also emphasised that as the Parliament Committee will review the achievement regularly on a quarterly basis, a suitable mechanism may kindly be put in place in your Institution/Bodies to submit the achievement on a quarterly basis.

Thank You
Yours faithfully

**TIME BOUND
PARLIAMENT ASSURANCE**

R/s Sir / Ma'm,

I am directed to refer the above cited subject and to state that information has been requested by Deptt. of Legal Affairs regarding Assurance in the Rajya Sabha Unstarred Q.No. 590 for 14.12.2018 on the subject 'increase in cases against Government' by Shri Kanakamedala Ravindra Kumar, MP. The Question reads as follows :-

(a) Whether Government is aware of the fact that cases against Government, Centre as well as States, have increased manifold over the years;

(b) If so, the details thereof;

2. It is requested that requisite inputs may kindly be sent by forenoon of 26th Feb 2021 positively to Dr. M. Mohanty, Scientist 'F' through Email (mohantym@nic.in) with a copy to sumeet.nagpal@nic.in.

Regards

 **LS Unstarred Q No. 11626-regarding- Job portal launched by TIFA.pdf**

443K

Technology Information, Forecasting & Assessment Council (TIFAC)

(Department of Science & Technology)
Vishwakarma Bhawan, Shaheed Jeet Singh Marg
New Delhi -110016

F. No. TIFAC/IMC/Parliament/2021
09.03.2021

Subject: Lok Sabha Unstarred Question No. 11626-regarding- Job portal launched by TIFAC

Dear Dr. Mohanty,

The parawise input on the subject Lok Sabha question is as given below:

(a) whether the Technology Information, Forecasting and Assessment Council (TIFAC) have launched a job portal recently, if so, the details thereof and the main features of the portal;

TIFAC on 10th February 2021 has launched a portal on National Scale namely SAKSHAM, which is a dynamic portal for mapping the skills of Shramiks vis-à-vis requirements of MSMEs across the country. The portal has been prepared and launched in the background of COVID – 19 pandemic and the ensuing lockdown, which have brought acute misery and hardships to lakhs of Shramiks all across India due to migration. The portal aims to address to the immediate need of these Shramiks for getting some gainful employment and at the same time for MSMEs and other industries to know the region / district wise availability of skilled / semi-skilled Shramiks.

The portal with demand and supply data, uses algorithm and logic along with various Artificial Intelligence (AI) tools, with geo spatial information on demand and availability of Shramiks. It also provides analysis on skill proficiency, skill gaps, and recommendations on skill development programmes, etc.

Industries may provide their information at the portal and Shramik information is collected through whatapp chatbot.

(b) the details of number of persons registered as job seeker, and as employers with the job portal alongwith the estimated number of jobs to be created;

About 2,40,000 Shramiks (only 55000 have given their skill profile) and 698 MSMEs have registered on the portal till date. The portal is not for creation of jobs. It is towards facilitation of job placement based on demand of the MSMEs registered and Shramik's profile.

(c) whether TIFAC has taken steps to create awareness about the portal;

Yes

(d) if so, the details thereof; and

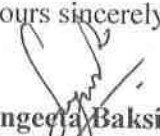

The awareness is being created through website, social media, nationwide live streaming of launch programme, media inputs, TV talks etc. Also efforts are being made for collaboration / signing of MoU with State Government, MSME Start Up Forum, etc.

(e) the extent to which it has been helpful in resolving unemployment problem in the country?

The portal has just been launched on 10th February 2021. The number of registrations have been as given under (b) above.

With regards.

Yours sincerely,

(Sangeeta Baksi)

Subject: Inputs for Lok Sabha Question Unstarred: Diary No : 11626 (Answer Date: 19/03/2021)

The parawise input on the subject Lok Sabha question is as given below:

(a) whether the Technology Information, Forecasting and Assessment Council (TIFAC) have launched a job portal recently, if so, the details thereof and the main features of the portal;

TIFAC on 10th February 2021 has launched a portal on National Scale namely SAKSHAM, which is a dynamic portal for mapping the skills of Shramiks vis-à-vis requirements of MSMEs across the country. The portal has been prepared and launched in the background of COVID – 19 pandemic and the ensuing lockdown, which have brought acute misery and hardships to lakhs of Shramiks all across India due to migration. The portal aims to address to the immediate need of these Shramiks for getting some gainful employment and at the same time for MSMEs and other industries to know the region / district wise availability of skilled / semi-skilled Shramiks.

The portal with demand and supply data, uses algorithm and logic along with various Artificial Intelligence (AI) tools, with geo spatial information on demand and availability of Shramiks. It also provides analysis on skill proficiency, skill gaps, and recommendations on skill development programmes, etc.

Industries may provide their information at the portal and Shramik information is collected through whatapp chatbot.

(b) the details of number of persons registered as job seeker, and as employers with the job portal alongwith the estimated number of jobs to be created;

About 2,40,000 Shramiks (only 55000 have given their skill profile) and 698 MSMEs have registered on the portal till date. The portal is not for creation of jobs. It is towards facilitation of job placement based on demand of the MSMEs registered and Shramik's profile.

(c) whether TIFAC has taken steps to create awareness about the portal;

Yes

(d) if so, the details thereof; and

The awareness is being created through website, social media, nationwide live streaming of launch programme, media inputs, TV talks etc. Also efforts are being made for collaboration / signing of MoU with State Government, MSME Start Up Forum, etc.

(e) the extent to which it has been helpful in resolving unemployment problem in the country?

The portal has just been launched on 10th February 2021. The number of registrations have been as given under (b) above.

Respected Sir/Madam,

The undersigned is directed to request you to provide Input/comment on Loksabha Admitted starred question No.12627 due for answer on 25.03.2021 relating to "Promotion of Innovation in MSME Sector" so that Suitable reply may be framed to the above question. The details of the Input /Comment may be sent to ramakrishnan.v@gov.in/ rakeshkumar@dcmsme.gov.in by tomorrow i.e 19.03.2021 positively.

The Text of the question is reproduced as Below:
Question : Starred: Diary No : 12627: Answer Date: 25/03/2021

LOK SABHA

D.No 12627

Ministry to which the day has been allotted : MICRO, SMALL AND MEDIUM ENTERPRISES

Sitting on the : 25/03/2021

Promotion of Innovation in MSME Sector

Will the Minister of MICRO, SMALL AND MEDIUM ENTERPRISES
(a) whether in this competitive market, one major issue faced by smaller entities is exploitation by larger entities and the same continues in case of the Micro, Small and Medium Enterprises (MSMEs) sector;
(b) if so, the details thereof and the steps taken/to be taken by the Government to help MSMEs sector to maximize and promote innovation after acquiring knowledge of trademark, patent and copyrights and other plethora of aspects of Intellectual property rights; and
(c) whether it is very much important to provide a shield to the MSMEs sector so that they can protect themselves from all exploitation and threats and largely contribute to the national figure and if so, the measures taken/being taken by the Government in this regard?
